Mason-Dixon Milestone No. 16

Architectural Survey File

This is the architectural survey file for this MIHP record. The survey file is organized reverse-chronological (that is, with the latest material on top). It contains all MIHP inventory forms, National Register nomination forms, determinations of eligibility (DOE) forms, and accompanying documentation such as photographs and maps.

Users should be aware that additional undigitized material about this property may be found in on-site architectural reports, copies of HABS/HAER or other documentation, drawings, and the “vertical files” at the MHT Library in Crownsville. The vertical files may include newspaper clippings, field notes, draft versions of forms and architectural reports, photographs, maps, and drawings. Researchers who need a thorough understanding of this property should plan to visit the MHT Library as part of their research project; look at the MHT web site (mht.maryland.gov) for details about how to make an appointment.

All material is property of the Maryland Historical Trust.

Milestone No. 16(17) marks Mason and Dixon's 16th horizontal mile west of the initial stone at the northeast corner of Maryland, the beginning point of their West Line. It is an original milestone of 1766, at an original site preliminarily surveyed in 1765.

The area here is increasingly hilly and wooded, sparsely settled, predominantly rural. The site is located within Election District VI of Cecil County, West Nottingham Township of Chester County; about 2 miles northwest of the town of Rising Sun, Maryland, at the south edge of an area known as Goat Hill; at a point about 1200' north of Ridge Road and about 1500' west-northwest of the Waters' house; in a cleared strip at the south edge of a deciduous woods and hedgerow. Unmarked, it cannot be seen from any road nor easily until fairly closeby when vegetation is dormant.

The monument, originally set to stand about 3' above ground, was reset to stand about 1½' high in 1902 during the course of the 1900-03 Resurvey of the Maryland-Pennsylvania boundary, and remains about that high. It is firmly in place, in good condition though considerably chipped along all edges and top corners. As with all original Mason and Dixon milestones: No. 16(17) is an embellished, squared oolitic limestone post with a low pyramidal top, and was quarried and carved in England. It still measures about 12" square; the capital P on the north (Pennsylvania) side is nicked, but clear, as is the capital M on the south (Maryland) side; most fluting and margins remain; and the top planes are discernible but weathered. The milestone is relatively protected, in this out-of-the-way site.

(see Thematic Group NR nomination form for descriptions of the original Mason and Dixon monuments and the 1900-03 Resurvey method of resetting them)

SPECIFIC DATES 1766 (reset 1902) ~~BUILDER/ARCHITECT~~ Charles Mason & Jeremiah Dixon
SURVEYORS

STATEMENT OF SIGNIFICANCE

There are 24 original crownstones and 111 milestones of 1766-67 still standing along Mason and Dixon's West Line, set at mile intervals through the 132nd mile, and including 12 added in 1902 beyond that point (3 crownstones, 9 milestones) at irregular intervals. Milestone No. 16(17) is primarily significant as one of this original series, which represents a boundary of national and state importance, not only for its symbolism at the time of the Civil War, but also for its innovative survey methods leading to the settlement of longstanding provincial boundary disputes a century earlier. Individually, and as one of 20 of the original 24 monuments remaining within the present Cecil/Chester and Lancaster county boundary, it is also significant locally as one of the diminishing number of objects and structures visually identifiable with our colonial and Civil War heritage.
